Q: Bitmap loading is slow, and no progress has been shown I'm loading a PNG image with this code : `Bitmap bitmap = BitmapFactory.decodeResource(getResources(), R.drawable.image); if (!(bitmap == null)) img.setImageBitmap(bitmap);` It takes about 10-15 seconds to load, and I have no clue why. When I'm using below code it's faster than the previous one : `img.setImageResource(R.drawable.image);` But, the problem is that it load a duplicate image(because when using `setImageResource`, it load and save into cache). Note : Any kind of picture(low quality) or any type of images are better than having no loading progress. A: Try using an AsyncTask with Bitmap, but don't wait for the thread to finish, just update the progress of you AsyncTask inside it's `doInBackground` and when its finished do `publishProgress`. `public class BackgroundTask extends AsyncTask { @Override protected Void doInBackground(String... params) { //Loading image here. return null; } @Override protected void onProgressUpdate(Void... values) { //This will update UI after a certain amount of time. } @Override protected void onPostExecute(Void result) { //In this place we have the result of the image. //At this point we can set ImageView. } }` To instantiate your AsyncTask use this: `BackgroundTask backgroundTask = new BackgroundTask(); backgroundTask.execute("image");` Q: Validating a number in c I have to validate a number in C and print the errors. The problem with my code below is that when I put an invalid number I get a lot of warnings. When the

What's New In?

King's Guard (Grimm) King's Guard is a fictional character that first appeared in the original fairy tale Sleeping Beauty. He is often considered the villain, and his counterpart, Prince Charming, is given the status of the hero. Character King's Guard is a malevolent, ancient figure who serves as the main antagonist of the Grimm Fairy Tales. In the original fairy tale, Prince Charming names him when King Wilhelm asks the residents to name the three best knights, and the villagers name Charming, King's Guard, and Kludde. King's Guard is a skeletal black-haired man with pointed ears and sharp yellow teeth. It is implied that he is an ophidian on account of the numerous snake-like tattoos that cover his body. In the original story, it is said that he is the former servant of Queen Snow White who was killed by a plague that he sent through the Fleece of Lament. When he demanded the life of the Princess, a plague was unleashed and he was considered the cause of her death. Some editions of the Grimm's Fairy Tales expand this detail, saying that Queen Snow White had become an ophidian, and was cursed by him with eternal youth. Through trickery, King's Guard tricked Snow White into a perpetual sleep and imprisoned her in a vast tower made of pure magic. Due to his ability to move about the kingdom freely, King's Guard is called "King of the Robbers" by the area's populace. He is also called "King of the Robbers", which can be seen as being interchangeable with his title of "King's Guard". In more recent publications, the story only name him as King's Guard. The King's Guard was later made more vivid by Georg Christoph Lichtenberg, who took the information of the original and created his own version of the King's Guard. Lichtenberg is from Germany, and was so appalled by the cruelty of this being that he said: Cultural impact The character is the basis for the King's Guard (Grimm's Fairy Tales) in the 2015 movie Sleeping Beauty, which depicts him as a hate figure who is openly set against the protagonist of the film, Prince William. In the movie, he forces the protagonist's father to marry his sister, curses the mother of Princess Aurora, and steals the Prince's mother, Princess Anastasia, to lure the Prince's mother's sister, Princess Snow White
