Combat Update: Changes in Battle and Order

Made through a gradual update to the combat system, we have made drastic improvements in offense and defense. The updates implemented so far are:

Affirmation - Single and Dual character attack force increased.

Slow Time - The duration of battle actions is increased by 50%.

Front Healing - The effectiveness of the healing actions performed by character is greatly increased when the character is in front of the enemy.

Hard Knock - Support actions from Single and Dual Attack Force are more effective.

Paralysis Heal - The restoration time during the condition of paralysis is greatly decreased and the number of times a character can use this action is increased.

Returning Bonus Action - The number of times that a character can use the action during a battle has been greatly increased and the preparation time for normal actions has been reduced by half.
