Star Trek Into Darkness - HD REMASTERED - IMPACT PLUS - 1080P BluRay Download Star Trek into Darkness is a 2013 American science fiction film based on the television series Star Trek: The Next Generation. It is the sequel to the 2009 film Star Trek, and the fourth film in the rebooted Star Trek film series, and the second sequel to the second reboot in the series. The film is directed by Justin Lin, produced by J.J. Abrams and Roberto Orci, and stars Benedict Cumberbatch, Chris Pine, Zachary Quinto, Karl Urban, Zoe Saldana, Simon Pegg, Anton Yelchin, and John Cho. The film originally had a worldwide release date of May 17, 2013, but was postponed to May 9, 2013, and then pushed back to May 17, 2013. At the beginning of production in mid-2013, Justin Lin was selected by J.J. Abrams to direct the sequel. The film was later announced to be a sequel, rather than a reboot, starting in the 23rd century. It was produced by Abrams, Orci, and Bryan Burk, with Chris Pine, Zachary Quinto, Zoe Saldana, and Karl Urban all returning from the previous film. Justin Lin was hired to direct the film, and Alex Kurtzman and Roberto Orci co-wrote the script with Chris Pine, while Damon Lindelof was hired to co-write with Orci. The previous reboot film was to have no physical tie-in with the original television series, unlike the third film in the reboot series, Star Trek, which had elements of the series included in the film. Star Trek Into Darkness is the first Star Trek film not to be based on the television series Star Trek: The Original Series, the second film in the reboot series to be set in the original television series' era, the fourth film to start its story about five years after Star Trek: Nemesis (which had a mid-2010s setting), and the third film to take place in a later time period in the Star Trek timeline, following Star Trek and before Star Trek Beyond.
