Include Relevant SEO Metas that Will Generate more Traffic to your site. ===== If you would like to also get help with creating your own SEO optimized sitemap, then check out our website to check out the available packages: Q: Help me learn ruby Possible Duplicate: How do I learn ruby? I am a newbie in Rails and Ruby and I have never studied programming. Now I have a problem. I want to learn Ruby and Rails. Anyone can please tell me all the documents and tutorials related to Ruby and Rails. A: I recommend Beginning Rails, 3rd edition by Sandi Metz and Dave Thomas. It's a great introduction to Rails, and is perfect for newbies. Also, check out the tutorial on RailsForZombies. A: There's no need for tutorials to learn how to code, or in Ruby. A language like PHP or Java is more instructive. Ruby and Rails by themselves are fairly easy to learn, but they're also fairly fast. So if you want to learn a bit of Ruby, download some projects and try them out. The Moose framework is a very simple to learn Rails 3 framework that's actually pretty good. You may want to take a look at that as an introduction to Rails (and Ruby) A: This is the best Rails book available. Read it completely. Saturday, April 28, 2010 While browsing the net I have found an alternative solution for the given quandary of modifying a coldfusion query with filters. To achieve this, its necessary to use a filter on every field of a query that you want to be able to be filtered on. For example: The same result can be achieved as shown in the picture below with the query: Getting Started All the code required to complete this example can be found at home.clan.org. Once that site is opened, you can edit all of the tables and queries that are included in the site by using the standard hotkeys: Cmd+W-Bar Cmd+Shift+B-Bar Cmd+K-Bar Cmd+I-Bar Cmd+T-Bar Cmd+ c6a93da74d
